## CANOVAS' MURDERER.

He Makes a Confession of His Terrible Crime.

NAME IS MICHELO ANGINE GOLLI.

He is a Native of Boggia, Italy, Near Naples-He Frankly Professes Anarchist Doctrines and Does Not Regret His Crime-President McKinley Expresses Sorrow and Sympathy.

Madrid, Ang. 10.—The man who shot and killed Senor Canovas del Castillo, the prime minister of Spain, has made a confession. He said that his real name was Michelo Angine Golli, that he was 26 years of age, a native of Palma expressed the opinion that if Sil-Boggia, near Naples, and that he left vala should be selected to succeed Can-Italy and came to Spain in 1896. After reaching Spain, Golli, according to his Weyler. General Palavieja has recently confession, resided at Barcelona and returned to Spain from the Phillipine participated in the doings of the various Islands. The Cubans would not receive anarchist associations of that place and vicinity. After sojourning at Barcelona for some time he visited France and Belgium and returned to Spain in July

After his return the anarchist seemed to have completed the plans for the assassination of the prime minister. He left Madrid for Santa Agueda at the same time as Senor Canovas del Castillo, and waited an opportunity to assassinate the statesman. In appearance Golli is of medium height, wears a full beard and spectacles, and his demeanor is that of a quiet, law-abiding citizen. He says he is satisfied with having "done his duty," and asserts that he had no personal grudge against the premier and was merely obeying orders received from his superiors in the secret society to which he belonged.

He frankly professes anarchist doctrines, says he was sent in 1895 to three months' imprisonment in the jail at Lucerne, in Italy, and claims that he escaped from there to Marseilles, from which port he made his way to Barce-

Senora Canovas, wife of the premier, who was but a short distance away from her husband when the crime was committed, rushed to his side upon hearing the shots. As the premier lay dying upon the ground she bitterly reproached the murderer for his crime.

Golli, in reply to the agonizing words of the distracted wife, said: "I respect you because you are an honorable lady, but I have done my duty, and I am now easy in my mind, for I have avenged my friends and brothers of Montjuich."

Montjuich is the fortress of Barcelona, outside of which the anarchists and the house ransacked. Failing to the least indication of weakness. who have been sentenced to death for find any money, the robbers took lighted recent outrages have been executed by being shot in the back.

The anarchists recently executed outside of Montjuich were the last batch of those who were guilty of throwing a bomb on June 7, 1896, into a religious procession about to enter the church of Santa Maria Delamar, upon the occasion of the Corpus Christi celebration Twelve persons were instantly killed, and about 50 others, several of whom since died from their wounds, were injured. For this crime 26 anarchists were sentenced to death, and many of them were executed. The condemned men invariably shouted: "Long live anarchy" just before the orders to fire were given.

A post-mortem examination of the body of the premier was made yesterday prior to embalming it for transportation to this city. The funeral will be most impressive. The highest military honors will be accorded the dead premier at his funeral. The court will, however, not return here from San Sebastian, the summer residence, to attend the funeral ceremonies. The queen regent will be represented at the funeral by the Duke of Solomayor.

The official Gazette appeared with a black border and announced the appointment of Lieutenant General Don Marcoto de Azcarraga, the minister for war as premier ad interim.

It is reported that Senor Pidill, president of the chamber of deputies, will be appointed president of the council of ministers in succession to the late premier, at the expiration of the nine days

WASHINGTON NOTIFID.

President McKinley Expresses Deep Sorrow and Sympathy.

Washington, Aug. 10. - Official notice of the killing of the Spanish premier reached the state department yesterday in the following telegram from Minister Taylor:

"Canovas assassinated by anarchists, Have expressed profound sympathy." The secretary of state immediately caused to be drafted the following message of condolence, which was forwarded to Minister Taylor, after having

been submitted by telegraph to President McKinley: "Your action approved. Renew in name of the president his expression of deep sorrow and sympathy for the loss borne by Spain in the death of Senor Canovas del Castillo, the prime minister of Spain, one of the most eminent of

He Thinks That the Death of Canovas Will Help the Cuban Cause.

NEW YORK, Aug. 10 .- At the headquarters of the Cuban Junta Delegate T. Estrada Palma talked briefly about the assassination of the Spanish prime minister. He said that in his opinion Canovas was more responsible for outrages in Cuba than was Weyler, and his cooker in southern portion; southerly killing seemed to be an act of retribu-winds, becoming northwesterly.

tion. At the same time the Cuban party had nothing whatever to do with the death of Canovas and had no knowledge that such an act was even contemplated by anarchists or any one else. Silvala, who was second to Canovas in power, although a member of the Conservative party, has expressed the opinion that if he had the power and was in possession of the absolute knowledge that the Cuban difficulty was the cause of the general uprising of the Cubans and not of any clique, he would advise the Spanish to evacuate the island.

Dr. Palma said that from every view the confusion caused by the death of that such an act was even contem-

the confusion caused by the death of Canovas could not but help the Cuban cause. The Cubans had no expression of sympathy to make for the act of the assassin, but at the same time Cubans could not but feel that they would benefit by it. Canovas had been threatened by the anarchists of Spain and or France, who are closely allied. Dr. ovas General Palavieja would succeed any more humane treatment at the hands of General Palavieja, as he is a behands of General Palavieja, as he is a believer, Dr. Palma says, in the Weyler methods of outrage and assassination. The Cuban army had fought in a manner which had commanded the respect of all nations, while Weyler and his men had brutally murdered and committed and mitted outrages which called for the condemation of all civilized people. In conclusion, Dr. Palma said that the

Cubans would not accept less than absolute independence.

The rooms of the Cuban junta were crowded with the members of the party, all of whom expressed themselves in condemnation of the act of murder committed by the Italian anarchist.

Has Awakened the London Police.

London, Aug. 10.—The assassination of the prime minister of Spain has caused great excitement and activity among the police of all branches in this city. All the men absent on leave have been recalled, and constant communications are going on between the British police headquarters here, Scotland yard, and the headquarters of the the remaining diggers will quit work Spanish police at Madrid.

MASKED ROBBERS' DOINGS.

Bachelor Brothers Brutally Tortured to Make Them Give Up Their Money.

Johnstown, Pa., Aug. 10.-Four masked robbers entered the house of Philip and John Dever, aged and wealthy bachelor brothers living in company which the miners were obliged Munster township, Cambria county, Sunday night and demanded their money. The two brothers and a nephew over the district. It is expected to keep aged 30 years were bound and gagged up the interest in every section and sticks and burned the feet of the three men to compel them to tell where the money was secreted.

While the burning stick was being applied to the feet of Philip, the nephew, who had managed to slip the blindfold from his eyes, turned his head to see what was going on. One of the robbers saw the move and ran to him, striking him a terrible blow on the mouth with his revolver, knocking out his teeth, shattering the lower jawbone

and splitting the upper lip. All their efforts failed to obtain information as to where they could find money, and the four men finally departed, leaving their victims tied. They are terribly injured, and Philip, who is 78 years of age, may not recover. There is no clew to the robbers.

DIED OF HER INJURIES.

A Woman Pierced by a Bicycle Handle Upon Which She Fell.

JEFFERSONVILLE, Ind., Aug. 10.-Mrs. Mary Grass of Port Fulton died yesterday of injuries received one week ago. Mrs. Grass, who was 50 years old, went to see the great new steamer, Robert E. Lee, launched at Howard's shipyards, and stepped close to the water's edge to get a better view.

She did not notice that just behind her a boy dropped a bicycle with a broken handle-bar, and when the waves from the launch came in she stepped back to keep her feet dry, stumbled and fell upon the handle-bar. The broken end penetrated the lower part of the abdomen for a distance of seven inches, inflicting the injury of which she died.

Boys Fight at Church.

LITTLE ROCK, Aug. 10 .- Thad Butler and Jesse Pearson, two white boys, aged 14, became involved in a fight during religious services at Butler church, near Star City, Lincoln county, Sunday night. Both boys used their knives and fought viciously. Butler was cut five times, and Pearson was stabbed near the heart. Both will die. The fight occurred while the minister was delivering his sermon, and the congregation left the church in great con-

Riot in a Jail.

St. Louis, Aug. 10.—A riot broke out last night among the prisoners in the jail at the Four Courts shortly before midnight. An alarm bell brought a force of detectives and police from headquarters, and with these reinforcements the prisoners were quieted without bloodshed. Twenty of the malcontents were placed in dungeons.

## APPEALS FOR FOOD.

Hunger Doing Great Injury to the Miners' Cause.

SUFFERING IS BEING RELIEVED.

A Thousand Dol'ars' Worth of Groceries and Provisions Distributed in Var.ous Tarts of the Districts-Strikers Getting the Miners Out in the Wheeling Dictrict-Reports From Various Places.

PITTSBURG, Aug. 10.-Hunger is doing more injury to the cause of the miners than any other one thing, and the efforts of the commissary department is doing everything possible to provide against this contingency. Appeals for food and provisions were numerous at the headquarters of the miners officials in this city yesterday. It appeared as if there was a wail from every section of the district, and miners in person were present to ask that the suffering ones be looked after. Secretary Warner was kept busy answering the appeals. He said last night that he had sent more than \$1,000 worth of groceries and provisions into various parts of the district. The appeals are now coming in from the families, the heads of which are at the various mining camps using their influence to keep other men from working.

Thomas B. Dearmit, superintendent of the New York and Cleveland Gas Coal company, worked hard yesterday to get the miners at Oak Hill to return to work. By a house to house canvass he succeeded in getting a few more diggers than has been at work. Thirtyseven miners went in. The men were told by Mr. Dearmit that they would lose all they had earned if they would not work and would be given five days to vacate the company houses. The strikers say only 75 men out of 285 were at work in the Plum Creek mine. The company claims almost a full force was working. The strikers are hopeful that

A series of meetings are to be held all vigils of the mines of the New York and Cleveland Gas Coal company are to be kept up and the vigor increased from day to day

A march is to be made from Turtle Creek tomorrow. There will be a number of brass bands in the procession. The strikers desire to awaken an interest in that section, as they claim the mines that are working are an injury to their cause.

At the instigation of Thomas S. Sutton of Willocks, Henry Ulrich, Emil Nazer, Henry Huser and Gustav Rings, miners, were committed to jail for a hearing before Alderman J. V. Mc-Masters on various charges yesterday. Ulrich is charged with aggravated assault and battery; Nazer with assault and battery, and Huser and Rings with unlawful assemblage. The arrests are the result of an altercation at Willocks July 26, on account of the strike. Warrants are out for a number of

Early yesterday morning the miners of West Elizabeth made a march on the mines of the Elizabeth Mining company, formerly operated by Horner & Robert. About 50 miners were going to work. After a consultation the men asked that they be allowed to finish loading a flat. They agreed to go out as soon as it was loaded, which will take several days. The officials of the company made an effort in the afternoon to get permission from the mining officials to continue work on a 69 cent basis. This was not given, and it is expected that the mine will be idle as soon as the

flat is loaded. MINERS ENCOURAGED.

A Number of Men in the Wheeling District Have Joined the Strikers.

WHEELING, Aug. 10.-Matters took a turn yesterday in the Wheeling district and the miners are feeling encouraged. Yesterday morning a small army of miners from Moundsville and Eenwood gathered at the works of the Glendale company, eight miles below the city, and soon induced the working miners at that plant to come out to a man. Flushed with their success at this point, the strikers, reinforced by the Glendale men and by a body of strikers that had come across the hills from Elm Grove, went to the Boggs Run mines and camped out on the hillside.

In the afternoon as the miners came out from their work the strikers took them in and secured their promise to remain out of the mines during the strike if all the men employed by the Boggs Run would make the same promise. The army then disbanded, with instructions to assemble at the mouth of Boggs Run mines, when the other miners will be seen and their promise to stay out secured. It is anticipated that this effort to cause a general suspension in the Wheeling district will meet with suc-

Pana and other places will meet them. The operators at Lincoln offered their men work every day in the week—they have been having but two days work on an average -if they would return to work. The proposition was declined.

Railroad Condemned.

HUNTINGTON, W. Va., Aug. 10.-Representative miners from Ohio and West Virginia have just passed resolutions condemning the Norfolk and Western railway officials for hauling coal from West Virginia fields. The railway has had an extra force of watchmen placed at every bridge and trestie on the line.

GOLD IN KENTUCKY.

Rich Quartz Found in Abundance in

Hardin County. ELIZABETHTOWN, Ky., Aug. 10.—There is no longer any question that gold has been found in paying quantities in this (Hardin) county, and that there are fortunes in sight for those who have claims in the favorable locality. The gold discoveries do not promise the richness of the Klondike regions, but the finds are sufficiently rich to guarantee comfortable profits to the fortunate owners of the properties.

W. B. Cundiff of Summit, 18 miles west of this place, and James D. Terry of Elizabethtown, who have a claim of Elizabethtown, who have a claim near Summit, are working it, and are now 20 feet down in the rock. The ore taken out within a few feet of the surface was assayed by E. W. Berry, the president of the National Bank of Idaho City, Ida., who is a registered assayist, and he reports it extremely rich. His assay shows \$33.079 pure gold to the ton and \$1.2806 of silver. The quartz continues to increase in richness the continues to increase in richness the deeper they go into the shaft, and judging from what an old miner says, will show up \$60 to the ton. He says the vein is about an inch and three-quarters wide, but continues to widen as they go down. It is found in a whitish granite, and so far \$12 per ton will cover all expenses of extracting the

Within a mile of this mine gold has been discovered in six different places. The ore taken from these new discoveries was sent to the United States assay office at Washington and assayed, showing up an average of \$55,267 to the ton. Cycle Company Assigns.

PHILADELPHIA, Aug. 10.-The F. W Dampman Cycle company made a general assignment yesterday for the benefit of its creditors, allowing a preference to Rouse, Hazard & Company of Peoria, Ills., and the Kirk Young company of Toledo, O. Mr. Dampman said the failure was due not alone to the general depression, but because of the cut rate war now going on among the large dealers. The Peoria company's claim is for \$10,000. Assets and liabilities have not yet been estimated.

#### LONG BRANCH.

#### Piper is to have the residence on East A Maysvillian Writes Interestingly of This Beautiful and Popular Summer Resort-A Plunge in Old Ocean.

LONG BRANCH, N. Y., August 6, 1897. Dear Bulletin: On my arrival East it was my in tention to write you from New York, but concluded to wait until my visit to Long Branch as first impressions are always a better incentive to literary inspirations. We left New York June 30th on a steamer called " Pleasure Bay," accompanied by quite a party of gay friends and fellowboarders for this most beautiful and deservedly famous resort.

After leaving the boat we took the trolley car and in about ten minutes arrived at the door of landlady for the season. A three hours sail from New York on a bright summer afternoon down the beautiful majestic deep blue Atlantic is a most enjoyable event.

For quite a distance every particle of landscape is entirely vanished from view, and for the time being, the floating vessel, the water and the sky form the only world as it were. At other times we were shown by our new friends some of the most interesting places on the coast, such as "Highland Beach," "Sandy Hook" and "Sea

Bright." On Sunday morning we attended mass at the oveliest little Catholic Church in New Jersey; it is situated on Second avenue and known as "Star of the Sea." Surrounding it is a beautiful yard and on one side of the walk leading to the entrance there is a lovely star composed of bright variegated leaves and blooming plants; on the opposite side there is an anchor of the same pretty flowers, and the grass there is like the the construction is very odd, handsome and unique.

Besides the congregation, who are refined elegant looking people, a great many wealthy Catholics attend therewho come down from New York, Brooklyn and elsewhere to spend the summer.

Well, after services we went immediately to the each, where the continual swell of the white billowy waves against the shore is to the beholder for the first time a most impressive and magnificent sight. At first there were only a few bathers to be seen from the spectators' pavilion, but finally they began to come until at last there | county. joying itself immeasurably. Of course that is what they come for, the ladies especially, a plunge in the surf, and to show off their pretty bathing suits and ball gowns. Nearly all the v.sitors avail themselves of the big bath tub nature has provided for them, and in less than no time your correspondent had donned the regula tion rig and went right "in the swim" It is because there is a certain uncertainty about a dive in the ocean that makes it so exciting, exhilarat. ing and interesting; you never know what is go ing to happen when you are in the tide. Once in, the fascination is overwhelming--few people remain here any length of time who hang their clothes on a metaphorical hickory limb and never go near the water.

Nearly all the pretty cottages are named for books or prominent people such as "Victoria," "Ivanhoe," "Garfield," "Aberdeen," "Loring-

There are two papers published here .- the News and Times," and the "Long Branch Record." At some of the hotel balls all dress in pure whi'e suits-at other times they have bicycle dances at which wheel costumes predominate The beautiful horses and stylish vehicles attracts great admiration and attention rolling along the broad shaded asphalt avenues, and the drive we enjoyed Sunday afternoon is something to be re-

With pardonable pride we learned that the 'span" was raised in old Kentucky, near Lexington. This is an ideal place for the student of human nature; here one sees them all, the society bell, the summer girl, the bicycle girl, the professional man, the business man, the clerk, the drummer, the dude and the chappie. However when one meets the better class of eastern people there is none to compare with them on this continent or abroad. In appearance, intellect, di. interested generosity, polished manners, social etiquette and broadmindedness they can't be sur. passed. Au revoir.

TWO RAILROAD WRECKS.

A Freight Train Goes Thro gh a Bridge and a Passenger Train Derailed.

PORTLAND, Ind., Aug. 10. - At 11 o'clock yesterday morning a southbound Grand Rap ds and Indiana freight train went through the bridge spanning the Wabash River, a mile north of Geneva. The engine and tender fell into the river and the cars piled up over them. Engineer Earney Reidt and Fireman James Gallagher went down with the engine. The former had both legs crushed and was otherwise badly injured. He will die. Fireman Gallagher and Brakeman James Clifford were severely injured. Owing to the wreck traffic over the road was suspended and passenger trains were sent from Portland and Decatar around by way of Celina, O., over other lines.

The southbound Grand Rapids passenger train, due here at 2 p. m., while making the detour was wrecked two miles north of Coldwater, O. The engine was running backwards at high speed when the tender left the track, piling up four passenger coaches and piling up four passenger coaches and completely demolishing the engine. Engineer James Anderson of Fort Wayne jumped with his fireman, Joseph Golding of Fort Wayne, and both were badly injured about the head and shoulders. Conductor George Green. shoulders. Conductor George Green-walt of Van Wert, O., who was piloting the train over the Cincinnati Northern track, was in the cab, and jumped, but was caught under the locomotive and instantly killed.
